Éva Kószó
Technical Writer & Illustrator

TL;DR

I help teams turn complex technical systems into clear, maintainable, and audience-oriented documentation. Over 9 years in technical writing, my work has grown alongside the evolution of the field: from structured DITA authoring, through docs-as-code and CI/CD-supported publishing, to AI-assisted workflows for planning, testing, and automating repetitive tasks.

I combine technical writing with visual communication and pedagogy to explain complex systems through documentation, diagrams, infographics, illustrations, and training materials.

TECHNICAL SKILLS

Documentation authoring and publishing
DITA · Asciidoctor · Markdown · RST · HTML · Pandoc · Adobe Experience Manager

Docs-as-code and version control
Git · GitHub · GitLab · CI/CD-supported documentation workflows

Diagramming, visual design, and multimedia tools
Adobe Creative Cloud (Illustrator, Photoshop, InDesign, Premiere Pro) · PlantUML · draw.io · Mermaid

Developer documentation support
API reference documentation · OpenAPI · YAML · JSON · configuration and release documentation

SPOKEN LANGUAGES

English: Fluent
Italian: Fluent reading/listening comprehension; limited active speaking
Hungarian: Native

EDUCATION

Bachelor's degree in Art and Visual Communication — University of Kaposvár (2009)
Certificate of Completion in Italian Studies — Eötvös Loránd University (2010)

WORK EXPERIENCE

Senior Technical Writer at DTC Enterprise / Mondi.Tech

2017–present | Same workplace; company name changed after ownership transition

- Contribute to a 27-product, tens-of-thousands-page DITA-to-AsciiDoc migration by cleaning and validating converted content and creating AI-assisted Python scripts for recurring cleanup, branding, image sizing, table handling, and PDF-output issues.
- Supported multiple documentation technology shifts by quickly adopting new tools and workflows, from DITA and RST to AsciiDoc, GitLab-based docs-as-code, OpenAPI YAML, WSL builds, and AI-assisted scripting.
- Owned documentation quality for complex 4G/5G core network products, covering user guides, deployment, configuration, release, troubleshooting, and API documentation.
- Overhauled OpenAPI YAML descriptions across 20+ APIs, replacing inconsistent command-style wording with standardized reference-style descriptions and improving generated API guides.
- Improved private 5G hardware documentation by replacing inconsistent or incorrect photo-based visuals with accurate branded line drawings for customer-facing and printed materials.
- Created an internal handover guide for a complex flagship product that became a long-term team reference and supported project continuity.

Technical Illustrator at Semcon

2015–2017

- Created technical illustrations for Jaguar Land Rover, Daimler Smart, and Sony documentation, including internal service procedures, owner's handbooks, online user guides, and in-box device materials.
- Produced CAD-based markups, Illustrator line drawings, and photo-based process illustrations to improve visual clarity, consistency, and completeness under tight delivery timelines.

Marketing Assistant at DomusLift Hungary

2012–2015

- Created customer-facing and certification-related materials, including brochures, website content, TÜV documentation, branded elevator books, fillable PDF forms, and price proposals; handled Italian-language communication with factories and management.
- Reduced outstanding receivables by 90% through structured follow-up with overdue maintenance clients, payment reminders, and tailored payment arrangements.

PERSONAL SKILLS & INTERESTS

I value simplicity and honesty in my interactions.

When the tools don't fit, I make new ones.

I like to play metal and punk songs on my ukulele.

My superpower is random acts of kindness.
